Education Academy of Computational Life Sciences

ORIENTATION

The "Education Academy of Computational Life Sciences (ACLS)" program:

Life Science Student + Knowledge of Computer Sciences

Computer Science Student + Knowledge of Life Sciences

= Doctorate students who have demonstrated excellence in their first major as well as having basic practice in their second major, and are potential leaders who will play an active role in the field of computational life sciences innovation.

ACLS students will receive the following support:

★ An ACLS Scholarship of 80,000 ~240,000 yen/month ※according to evaluation
★ Support for travel expense to conferences.
★ Participation in an International Summer School with partner universities, etc.
★ Free loan of notebook PC
★ Free use of the TSUBAME Supercomputer
★ Interaction with corporate researchers
★ Small size Science English classes by native English lecturers

For details,

2014.
10/6(Mon.)
12:30~

@Suzukakedai Campus
J3 Bldg. Room 405

@Ookayama Campus
Main Bldg. Room B 04

【Eligible Candidates】Master's students in the ten associated departments of the following three graduate schools

Graduate School of Bioscience and Biotechnology：
Department of Life Science, Department of Biological Sciences, Department of Biological Information
Department of Bioengineering, Department of Biomolecular Engineering

Graduate School of Information Science and Engineering：
Department of Mathematical and Computing Sciences, Department of Computer Science,
Department of Mechanical and Environmental Informatics

Interdisciplinary Graduate School of Science and Engineering：
Department of Computational Intelligence and Systems Science, Department of Information Processing
