

Be a Gamma Type Specialist in Life Science & Computer Science

Call For Enrollment

The ACLS is a program adopted by MEXT's Program for Leading Graduate Schools in 2011. As of September 2016, 80 students have been participating in ACLS.

We focus on providing our students with concrete education in their main areas of expertise in life sciences or computer sciences. In addition, we provide them with fundamental knowledge for their secondary specialities and with opportunities for effective learning through problem-solving experiences in which they can apply their different specialities collaboratively.

Education Academy of Computational Life Sciences (ACLS)

【Eligible Candidates】

Master's students who enrolled in FY2016 and selected one of the graduate majors of the following Schools

- School of Life Science and Technology (All 2 graduate majors)
- School of Computing (All 3 graduate majors)

Master's students who enrolled in or before FY2015 and are affiliated with one of the following Departments

- Graduate School of Bioscience and Biotechnology (All 5 departments)
- Graduate School of Information Science and Engineering (All 3 departments)
- Interdisciplinary Graduate School of Science and Engineering
(Department of Computational Intelligence and Systems Science,
Department of Information Processing)

Orientation

Information about scholarship eligibility, travel expense support, interaction with corporate researchers, science English education, students ACLS fostering, program completion requirements, etc.

September 30th, 2016 / 12:20pm-1:15pm
Main Bldg. Room B04, Ookayama Campus
J3 Bldg. Room 405, Suzukakedai Campus
