

Education Academy of Computational Life Sciences (ACLS)

Call For Enrollment

【Eligible Candidates】

Master's students who selected one of the graduate majors of the following Schools

- School of Life Science and Technology (All 2 graduate majors)
- School of Computing (All 3 graduate majors)

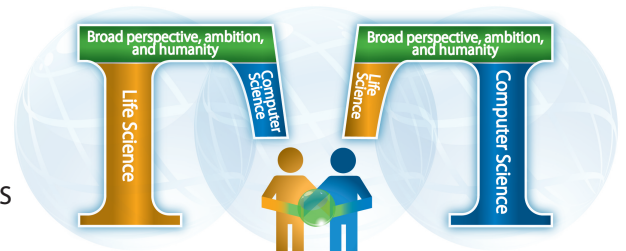

The ACLS is a program adopted by MEXT's Program for Leading Graduate Schools in 2011.

We focus on providing our students with concrete education in their main areas of expertise in life sciences or computer sciences. In addition, we provide them with fundamental knowledge for their secondary specialities and with opportunities for effective learning through problem-solving experiences in which they can apply their different specialities collaboratively.

As of March 2017, 80 students have been participating in ACLS.

Training for I^T Type Specialists

Students in different fields study together their major and sub specialty

< Orientation >

Tuesday, April 4, 2017 18:00-18:30
